

Oil-Free Compressors | PRO SERIES

*Used in heavy-duty, time-demanding applications.
Powering contractor and craftsman tools.*

The PRO SERIES of Compact Air compressors is especially designed to be used as a power source to equipment requiring repeated bursts of compressed air. Especially suited for craftsmanship, maintenance and construction where human-driven equipment is used, such as sand blasting, spraying, nailing, stapling, grinding, and plastering.

The oil-free mechanism guarantees a smooth and low-wear operation with no breakdowns and unnerving maintenance requirements.

Powered by the patented Axxer Motion technology, a single reciprocating piston slides along two low friction cylinders. It results in constant pressure and optimal performance.

KEY FEATURES

SERIES	Pro
MANUFACTURING	Made in Italy
WARRANTY	3 years
STEEL TANK	Epoxy-coated, external
POWERED BY	Axxer Motion pump
MAX PRESSURE	10 bars
WORK	Heavy-duty, intermittent use
PUMP MECHANISM	Oil-free
NOISE COMFORT	Average
MAINTENANCE	None up to 1500 hours *
DUTY CYCLE	S1 – 100%, continuous

* Based on 10 bars continuous operations at 40°C
