Air technology system

COMPACK 2 - 3

ROTARY SCREW COMPRESSORS

FIXED SPEED - DIRECT DRIVE 1:1

KTC
EXCELLENCE IN COMPRESSED AIR

COMPACK 2 / 3

COMPACK represents a real revolution in the sector, allowing the exploitation of the technical and technological standards of an industrial screw compressor, which was the exclusive prerogative of the piston compressors' markets until yesterday. Thanks to the **Heating System**, which eliminates the problem of condensate generation, **COMPACK** can also be used in non-continuous use regimes. Thanks to the electronic control, **K-Tronic** is equipped with all the typical functions of larger-size machines, controlling the empty loading cycles automatically. Plus, with the same air output, it guarantees energy savings compared to the use of a piston compressor of the same flow rate. Available version on **2.5 lt, 90 lt** tank, tandem on 500 lt tank and **Air Trolley** with single-phase and three-phase motor.

01. BEST PERFORMANCE
LOW ENERGY COSTS

06. ELECTRONIC
CONTROLLER

02. DESIGNED AS A
INDUSTRIAL COMPRESSOR

07. SUPER SILENCED

03. COOLING CIRCUIT

08. TURNKEY PRODUCTS
WITH AN ALUMINUM CASE

04. BEST PERFORMANCE IN JUST
A SMALL AMOUNT OF SPACE

09. FAST AND ECONOMICAL
MAINTENANCE

05. GREAT COMPACTNESS

10. ANTI-CONDENSATION
SYSTEM

11. CONSTANT AND IMMEDIATE
AIR FLOW WITH NO BIG TANKS
REQUIRED

INTEGRATED AIR-END

COMPACT is made up of a state-of-the-art pumping group, the most compact in the field, integrating the main components of a screw compressor (air-end, separator tank, thermostatic and minimum pressure valve, intake valve). Innovative in the selection of materials, a heart of steel in an aluminum body.

Compact 2 - 3
