

# Angle grinder for sheet metal 75 mm 3" 240 l/min

45433

# Product details

EAN	8712418323047
Manufacturer	Airpress Polska Sp. z o.o.
Weight (kg)	0.8 kg (800 g)
Length (mm)	235 mm (2.35 dm)
Width (mm)	95 mm (9.5 cm)
Height (mm)	85 mm (8.5 cm)
SKU	45433
Maximum air consumption at 6.3 bar (l/sec)	4
Average air consumption at 6.3 bar (l/min)	168 L/min (2.8 L/s)
Maximum air consumption at 6.3 bar (l/min)	240
Rounds per minute (RPM)	20.000
Working pressure (bar)	6.2
Disk diameter (mm)	75

# Description

The 75mm 45433 Airpress grinding machine is a very compact device for grinding metals, even in hard-to-reach places. The knife extends beyond the periphery of the device in the frontal position, allowing small elements to be accurately cut. Standard 75 mm corundum discs enable easy machining of metal parts, even in hard-to-reach places. Revolutions of 20,000 rpm with a conversion capacity of 640 watts make it easier to grind the disc in the element. An efficient shield of the 180 degree hot disc protects the remaining elements against damage from sparks and sharpening during grinding. Equipped with a silencer that reduces the working noise to 85 dB (A). The 45433 Airpress sharpener is especially popular in sheet metal, renovation or hydraulic works for cutting small parts with limited access. Perfect for sheet metal, pipes, steel, screws, plastics and laminates.
