## Description

### K17C piston compressor pump

The K17C piston compressor pump is a reliable, single-stage, belt-driven pump with two pistons, designed for high efficiency. Manufactured in the European Union, it meets European quality and safety standards, which ensures durability and effective operation of the device.

The K17C model is made of the highest quality materials, such as cast iron cylinders and forged crankshafts, which guarantee resistance to overloads and long service life. Wide fins and large pulleys with oversized blades provide effective cooling during operation, making this pump ideal for applications requiring reliability.
