## Description

### K18C piston compressor pump

K18C compressor piston pump is a high-quality single-stage belt-driven pump, equipped with two pistons. Manufactured in the European Union, it meets stringent quality and safety standards, offering reliability and efficiency in demanding applications.

The K18C model features a solid construction, including cast iron cylinders and forged crankshafts, which guarantee resistance to overload and long service life. Thanks to large pulleys with enlarged blades and wide ribs, the pump ensures effective cooling and stable operation even with intensive use.
