

Filters specification

Features

- Filter elements are manufactured using high quality materials from leading suppliers.
- Automatic condensate drain.
- Maximum operating pressure of 16 bar.
- Operating temperature range from 2 °C to 60 °C.

Technical data

Grade	S
Filter type	Super-filtration aerosols of oil & water, solid particles
Particle removal*, micron	0,01
Max. remaining oil content at 20°C (total oil)*, mg/m3	<0,01
Maximum operating temperature, °C	65
Pressure loss at nominal air flow - new filter element, mbar	80
Pressure loss at nominal air flow - element change, mbar	350

* Nominal conditions and test procedures according to ISO 8573
