Description

K50 piston compressor pump

The K50 piston compressor pump is a reliable two-stage device with a belt drive, equipped with two pistons. Produced in the European Union, it meets the highest quality and safety standards, offering durability and efficiency in demanding working conditions.

The K50 model uses an advanced two-stage compression system, which ensures high efficiency and stability of operation. Cast iron cylinders, forged crankshafts and wide ribs guarantee long service life and resistance to overload. Large pulleys with enlarged blades enable effective cooling, ensuring uninterrupted operation even with intensive use.
